 Amerisight™  
The Preferred Refractive Benefit

## LASIK Benefits

### **Amerisight Physician Network:**

The Amerisight network of refractive surgeons consists of board certified ophthalmologists who own their own laser equipment. These physicians have invested anywhere from \$150,000 to \$350,000 in laser technology. Their medical practice is focused on refractive surgery and that is the service they provide. There are less than 1,000 refractive surgeons who own their own lasers and Amerisight has contracted with approximately one-third of these physicians. These physicians have performed over 950,000 procedures almost double the amount of procedures that other LASIK providers promote for their doctors.

### **LASIK discounts...**

EyeBenefits' members receive a fixed, preferred price through Amerisight that represents a 40 to 55% savings off the national average cost of LASIK. Amerisight is a vision correction benefit management company that provides a national network of credentialed ophthalmologists at over 350 LASIK locations nationwide.

### **How EyeBenefits Members Utilize This Plan:**

1. Members call:  
**1-888-733-6694**
2. An Amerisight Care Manager explains the entire program and answers member questions.
3. A preliminary phone screening is conducted to ensure the member is a potential candidate.
4. Members select a physician from the list of credentialed local Board Certified Ophthalmologists.
5. The Care Manager schedules an appointment with the selected physician and collects a completely refundable deposit from the member.
